PET PREFORMS

Bringing Quality At Your Doorstep

About Us

Welcome to Novel Pet.We are one of the leading manufacturers and exporters of PP and Pet preforms. With 50 years of collective experience in Pet and PP packaging industries, we have been creating milestones in preform manufacturing for our clients. Our clients include major companies from pharma, FMCG, Food & Beverages, healthcare,personal care and chemical industries.

We have in-house R&D and well managed quality control departments that have enabled us to achieve near zero rejections in blowing process, deliver higher strength packaging solutions from lower preform weight, lower acetaidehyde (AA) levels.

Our Purpose

To be at the forefront, to fulfill packaging needs of our customers.

Our Vision

To be single roof solution in preform industry known for reliablity and expertise and to become our client's trusted partners.

Our Mission

- To continue to develop new and innovative products
- To strive hard to constantly deliver excellent products, quality and services and to improve customer experience by adapting to new changes in technology methods.
- To retain and develop our customer-centric experience.

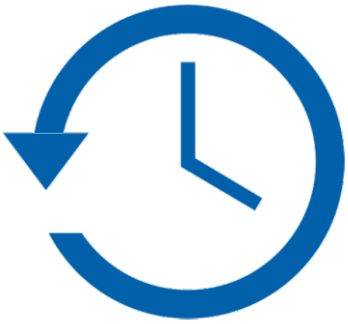
PET PREFORMS
Bringing Quality At Your Doorstep



Our History

1986

Novel Pet started with small manufacturing unit of caps and closusers in Pharma industries

1992

Diversified into manufacturing molding of cassettes, cassettes covers and accessories.

1995

Started a new manufacturing plant in Shahpur (Maharashtra).

1998

Started a new centralise manufacturing facility in Silvassa; Novel Plastics Pvt. Ltd. was incorporated.

2000

After being established as One of India's leading manufacturer, Novel Plastics began to export cassettes and CD Covers in global markets.

2006

Diversified into manufacurting PET and PP Preforms.

2008

Modernization of Silvassa facility to cater to increasing demands of preforms.

2010

Started with export of PET and PP Preforms in middle east and Africancountries.

2014

Major expansion and up-gradation of technology to increase manufacturing capacity to 6,000 metrics tons annually.
